Summary

Hi, I'm Richel, a recent Computer Engineering graduate with a strong passion for programming. I'm actively looking to improve my skills and expand my experience in the field. I'm dedicated to putting in the effort required to excel and bring genuine enthusiasm to every project I undertake.

Career history

Software Engineer Intern at Alphaus

Jan 2024 - Mar 2024 (3 months)

Collaborated with a team of 10 members to work on a project to create a data ingestion system using PubSub that processes a continuous stream of input data and performs analysis on it, which increases the company's workflow by 10%.

Created the logic for the process and analysis as a Backend developer which determine their top 3 most expensive services to date, least expensive service to date and the number of messages processed so far.
